YOUR FUTURE GUIDE TO SUCCESS WITH FLC

## New Employees

New employees will be placed on a brief 60-day probationary period. Once your probationary period has been lifted, you will then be eligible in Crane College.

Crane College consists of three courses with a maximum duration of one year each.

The **CHOSEN FEW** program is designed for trainees who are needing to learn the basic tasks performed on the job.

The **BLUE BLOOD** program is an invitation only course designed to further the trainee's knowledge and advancement in the company. Trainees will complete this course at a lead mechanic level.

The **ELITE** program is an invitation only course designed to further educate the lead mechanic. In this course, the trainee will learn all rolls of the supervisor's position.
